

# Data Scientist

NOVATO, CA

FULL-TIME OR FULL-TIME CONTRACT TO HIRE

One Legal is a technology-driven company that is transforming how legal professionals access legal support services. We're building online tools that help simplify the administration of legal practice and, in the process, transforming an industry.

It's our vision to be the most trusted technology provider for legal support services in the United States.

## ABOUT YOU:

You are a data scientist with a track record of delivering results. You find satisfaction in shipping deliverables that deliver measurable impact in the form of immediate revenue. You apply machine learning and data science techniques when applicable, but are just as happy to implement a simple heuristic when you find it's as effective at driving impact and innovation here at One Legal

## YOU WILL:

A key individual contributor to drive our legal tech innovations and monetization based on data science unlocking strategic values from data assets. You will perform rigorous analysis, understand our business and services, experiment, make data-driven decisions, develop new products and features, optimize for impact, and measure performance.

- Legal tech innovation based on data science
- End-to-end model development: Build products and/or features from the ground up, from data exploration through feature generation and into model construction and optimization.
- Marketplace services and contents recommendations.
- Lead collaboration with teams across the company.
- Communicate key results to senior management in verbal, visual, and written media.
- Own the implementation of your models and insights and see them deliver real results.

## WHAT WE WOULD LIKE TO SEE:

At One Legal we consider every candidate on his or her individual merits. However, possession of the following will help to differentiate you from the field.

- Experience building models, engineering features, and using data intelligently to optimize product performance.
- Natural language processing and text/document processing.
- Deep understanding of data platforms in which you've previously worked.
- Ability to thrive in an unstructured environment, working autonomously on a strong team to find opportunity and deliver business impact
- Good understanding of (one or more of the following): Python, Perl and PHP.

## BENEFITS:

We offer a great compensation package, with paid vacation and sick time, flexible working options (including remote "workcations"), a fun and casual work environment, a competitive benefits plan, and the opportunity to be part of a team that is shaping the future of legal technology.

As a bonus, you'll be working out of our headquarters in beautiful Marin County, just 25 traffic-free minutes north of the Golden Gate Bridge.

## HOW TO APPLY:

Send a resume, cover letter, and link to your LinkedIn profile to [resumes@onelegal.com](mailto:resumes@onelegal.com).
