

Front End Software Engineer

NOVATO, CA

FULL-TIME, REMOTE WORK FLEXIBILITY

One Legal is a technology driven company that is transforming how legal professionals access legal support services. We're building online tools that help simplify the administration of legal practice and, in the process, transforming the industry.

It's our vision to be the most trusted technology provider for legal support services in the United States.

ABOUT YOU:

As a Frontend Software Engineer you will create, modify and improve the user interfaces and user experiences of all current and future products. They will work closely with both Product and UI/UX designers to implement the vision and the overall user experience in a timely manner with standards as defined by Product. They will work with the current Engineering team and follow process to develop, maintain and build code in a timely and orderly fashion. This position will not only be required to implement but also to understand our user base to better deliver a high-quality experience.

YOU WILL:

- Collaborate with UI/UX designers to iterate, create and implement the design on all current and future products
- Work with full stack engineers to build features and implement functionality as it pertains to the UI/UX
- Recommend front end technologies and frameworks and changes to current tech stack
- Participate in SDLC process from idea to release
- Work closely in an agile team environment
- Identify and communicate front-end best practices and industry standards

WHAT WE WOULD LIKE TO SEE:

At One Legal we consider every candidate on his or her individual merits. However, possession of the following will help to differentiate you from the field (not all are required):

- Possess a minimum of 5 years professional experience in front-end development
- A solid understanding of web development and standards as well as best practices
- Expert knowledge with React, redux, HTML, CSS3 and JavaScript (ES6) and other related web technologies such as Webpack, npm, Git, SaaS, Node.js
- Familiarity with MVC frameworks is a really nice to have (ASP.NET MVC, Ruby on Rails)
- Strong understanding of cross-browser compatibility issues and client-side performance issues
- Experience with mobile app frameworks (i.e. Native)
- Demonstrated design and UX capabilities
- Nice to have Vue.js, Vuex, Yarn, Polymer, Stencil.js, Bootstrap, Grunt, Gul
- BA/BS degree in Computer Science or related technical discipline

BENEFITS:

We offer a great compensation package, with paid vacation and sick time, flexible working options, a fun and casual work environment, a competitive benefits plan, and the opportunity to be part of a team that is shaping the future of legal technology.

As a bonus, you'll be working out of our headquarters in beautiful Marin County, just 25 traffic-free minutes north of the Golden Gate Bridge or in Oakland.

HOW TO APPLY:

Send a resume, cover letter, and link to your LinkedIn profile to resumes@onelegal.com.
